

Dragon Wing® & BabyWing®

begonias soar in heat & shade

BabyWing Pink and Dragon Wing Red

Dragon Wing Series & BabyWing Series Begonia
These “Amazing Blazing Begonias” are extremely tolerant of heat, humidity and cool conditions offering exceptional performance in hanging baskets, containers and landscapes.

Dragon Wing features an arching and full plant habit with angel-wing leaves and large blooms. This Georgia Gold Medal and Mississippi Medallion award winner performs well with great vigor in the garden, even under stressful conditions.

BabyWing flowers 2 to 3 weeks earlier than Dragon Wing with a more upright habit and smaller sized foliage.

Both Dragon Wing and BabyWing are easy-care varieties that bloom continuously all season up to frost.

Dragon Wing Series is one of Allan Armitage's choices for the 10 most significant annuals. "What a terrific plant...the catapult for all non-wax begonias...It worked everywhere and is still immensely popular," said Allan Armitage, Greenhouse Grower, August 2008.

BabyWing series received a perfect rating during the Summer evaluations at the 2008 University of Florida garden trials.
